

# Provincial Spring Games Ten Pin Bowling

## Athletes from the 2020 Spring Games

Athletes who were identified to attend the 2020 games are required to participate in an invitational competition (HTG, etc) and submit their results [HERE](#).

## New Athletes for the 2024 Spring Games

- **2020 Quota = 80**                      **2024 Quota = 96**
- **2020 Returning Athletes = 57**
- **Quota available = 37**
- Each Provincial Conference Qualifier (9) will be awarded one (1) Male and one (1) Female quota. Total 18 quota.
- Remaining sport quota will be divided to proportionally represent the gender split of athletes who competed in tenpin across the Province Conference Qualifiers.
  - I.e. if males represented 65% of the participation across the province, male quota would represent approximately 65% of the remaining sport quota allocations.
- Gender quota will be awarded to qualifying competitions based on percentage participation numbers.
  - I.e. if Conference A had 18% of the total male participation across all qualifiers, they would receive approximately 18% of the total remaining male sport quota.
- SOO realizes that this advancement method will impact standard team play at the 2024 Provincial Spring Games. As a result, teams will be created from the participating athletes, not necessarily conforming to District boundaries. Team play has no bearing on advancement to the 2026 National Summer Games
