

# The **INCLUDE** Framework

This framework is a step-by-step plan to help students create initiatives in their schools!

---

The first step is to **identify** what your school is missing and **name** the needs of your peers when it comes to inclusion

---

Use the space below to write a list or brainstorm your idea(s)

Identify/Name

Ask: What is missing and who is being left out?

Make a list of problems you want to solve

## Create a Solution

1.

Choose one  
issue to focus on

2.

Come up with a  
solution for this  
issue

3.

Ask: Can we do  
this? Does it make  
everyone feel  
included?

## Lay Out the Plan

It's time to put the plan into action! This timeline will have you plan what steps your group has to take!

Below is a timeline for you to fill out. The first few are filled out to get your started. Its your job to plan the rest!

|  |  |
|--|--|
| When do you want to start the project? | What are you developing?                         |
| How are you going to contact everyone? | How will you start gathering supplies or support |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |

## Unite the School

Another big step is uniting the school so that your plan can involve everyone! Answer the following questions to make sure you are on track to doing that.

Who are all the people you would need to talk to (circle)

|                |          |           |       |
|----------------|----------|-----------|-------|
| Principal      | Teachers | Students  | Other |
| Vice Principal | Coach    | Counselor |       |

How are you going to tell others about your idea?

|---------------|------------------|---------|
| Email         | Teachers         | Posters |
| Announcements | Classroom Visits | Other   |

How are you going to get others excited about your idea?

Notes:

## Do a Proposal

Here you will write a proposal or a letter to the principal or someone else in the school explaining your **problem, solution, goal, plan, timeline, and why this is what the school needs**

Do

# Evaluate

## Evaluate & Celebrate

Almost done! The last step is to evaluate what went well and what could be improved! Below are some questions to consider

---

How will you evaluate if you were successful?

What were some potential challenges you would face?

How would you adapt?

How did your plan promote inclusion?

Anything you would change for next time?
