Rowan's Law – Verification

Rowan's Law is provincial legislation regarding concussion training and awareness. SOO is committed to being a leader in the support and implementation of Rowan's Law. SOO and by association, all of our clubs, teams and members are legally bound by the requirements of the law.

All SOO members (athletes, volunteers, coaches) participating in in-person programming are required to review the concussion resource options below annually, and sign off that they understand and have reviewed the resources.

Members must review one or both of the following resources:

1. Rowan's Law Guide for Students & Athletes of All Abilities.

2. Concussion Education for Special Olympics Athletes Video

All members must sign off on having reviewed the above resources before, or at, the first session of each season. By signing below, you are confirming that you have reviewed one of the two resources required above.
